<i>Conditions, Map</i>	4

"Most abundant wildlife I have seen in Africa. 1500+ Cape Buffalo, Lions on every bait during safari, great leopard country. AWESOME AREAS and Professional Hunters." Jason Murphy

Zambia is one of the finest, if not the best, dangerous game hunting grounds in Africa. There are 18 National Parks covering over 14 million acres, and hunting concessions totaling in excess of 34 million acres. A third of the entire country is set aside to wildlife, which means it is an African safari paradise.

The majority of our Zambian safaris take place on the concessions adjacent to the North and South Luangwa National Parks. The Luangwa Valley has long been one of the best areas in Africa if you are looking for truly huge lion, leopard, buffalo and other plains game. We also conduct safaris on a few of the prime concessions around the Kafue National Park that offer tremendous dangerous game as well as sable, roan and other plains game. Everyone traveling to Zambia should plan on adding a few extra days for species like Kafue & Black Lechwe, Sitatunga, Tsessebe and Oribi.

MUKUGULE & UPPER LUPANDE GMAS, LUANGWA VALLEY

Mukungule is a brand new concession that borders the western side of the North Luangwa National Park. This is Zambia's latest declared game reserve, and we predict it will produce some truly once in a lifetime trophies for our clients over the next 3 to 5 seasons. This area has it all including lion, leopard, buffalo, sable, eland, roan and plains game. Intensive management and anti-poaching patrols instituted by some of the world's largest conservation groups have had an unbelievable impact in this area. We fully expect our clients to shoot some of the biggest Lion and Cape Buffalo the likes of which Zambia has not seen in over 30 years. Only a few lucky hunters will have the opportunity to hunt this concession due to our strict conservation efforts.

Upper Lupande is located in the Luangwa Valley and is reached via commercial air to Mfuwe from Lusaka, then about a one hour drive to camp. This concession has a long history of very good hunting, especially for lion, leopard, buffalo, eland, roan and plains game.

RUFUNSA GMA AND BANGWEULU SWAMP

The Rufunsa is a fairly rugged area where some of the largest buffalo are found in all of Zambia, but hunters must be physically fit. The Rufunsa borders Mozambique to the east of Lusaka and the camp is set alongside the river; a very pretty location. Rufunsa would be the destination for a hunter who wants a big buffalo and a very good leopard (100% success rate).

Bangweulu Swamps is an 850,000 acre hunting area where animals like Black Lechwe, Tsessebe, Sitatunga, Oribi and Reedbuck are found in very good numbers. The area usually requires a charter flight, but if you are hunting Mukungule it is only a 3 hour drive. This is a famous hunting area, and the only place where you can hunt Black Lechwe in the wild. In 2006 the first Buffalo quotas were issued and results

SAFARI RATES

24-day lion, leopard, buffalo, plains game	Upper Lupande/Mukungule	\$56,400
