Zambezi Hunters, Zimbabwe

Zambezi Hunters offer some of the finest big game and plains game hunting available in Africa today. Established in 1969 it is one of the oldest existing hunting operations in Africa with a tradition and reputation second to none. Our wildlife concessions encompass large areas of both private and communal land in the game rich region of the southeast lowveld of Zimbabwe.

We have more than five safari camps from which to choose, offering large, diverse hunting quotas for both Big Game and Plains Game hunting. Our highly experienced professional hunters and staff will ensure you have a truly memorable hunting safari.

Save Valley Conservancy

The Save Valley Conservancy is the largest privately owned game reserve in Africa. It encompasses an area of just under one million acres with the Big Five and excellent plains game. There are not internal fences with the conservancy allowing free movement of animals throughout the reserve. The terrain varies from thick riverine to open woodland with small rocky outcrops throughout the area. This area boasts excellent buffalo, leopard and plains game, offering the hunter a wide range of species in one area.

Mahenye and Gonarezhou National Park

We have the exclusive hunting rights to the Mahenye concession which is adjacent to the famous Gonarezhou National park in the south east lowveld of Zimbabwe. It is also part of the Trans-Frontier National Park between South Africa, Mozambique and Zimbabwe. This area offers excellent elephant as well as leopard, hippo and crocodile.
